- Currently working as Senior Project Engineer at Wipro Technologies.

Skill Sets

Operating Systems	Windows 7 & Windows *
Languages & Tool	Core Java, Spring MVC4, Servlet, Hibernate, Git, Gradle,
Databases	Oracle, MySQL
Java Application Server	Apache Tomcat

Professional Summary

Wipro.Com | Pune | www.wipro.com

Sep. 2015 – Till now

Project 1: ngGenie

Client	Telenor
Technical Skills	Core Java , Spring MVC4, MySQL , Git, Gradle
Description	Wipro ngGenie is a Next Generation Intelligent Virtual Agent Platform for Enterprises. It provides personalized, intelligent and contextual "Do It Yourself Experiences" across different enterprise business processes. It can boost current digital experience & can be deployed as a plug-in on top of existing applications on mobile, web and desktop. Wipro ngGenie has developed a framework to help customers quickly roll-out intelligent virtual agent applications across different enterprise business processes and across different customer touch points.

Roles and Responsibilities in the project:

- Developing code and building logic.

- Code reviews and Documentation.
- Involved in defect fixing.
- Performing Unit and peer code reviews.

Project 2: 3M WCM

Client	3M
Technical Skills	HTML, CSS, JAVASCRIPT, FUZEAUTH,
Description	The project is about rapid constructing of websites. Domain of website creation is divided into subgroups i.e. HCBG, EEBG, IBG, SGBG, CORP. For creation of websites we are relaying on FUZE environment. Fuze environment has a wide variety of features, we are using IBM WCM content management system product to construct websites.

Roles and Responsibilities in the project:

- Playing the role of Developer.
- Gathering requirements from the client.
- Developing websites
- Performing Unit testing

Education/Achievements

Education:
